-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 10, 12, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Schroeder et al 4,705,114. Schroeder shows a fluid separator 23 (fig 2) for the separation of fluids in connection with the extraction and production of oil and gas from formations beneath the sea bed, the separator comprising: a pipe separator 23 having an inlet 27 and an outlet 29; a first transport pipe 19 connected to the inlet of the pipe separator; a pipe bend, connected to the outlet of the pipe separator, for forming a downstream fluid seal in relation to the pipe separator and maintaining a fluid level in the pipe separator, wherein the pipe separator and the pipe bend are arranged to permit the pipe separator and the pipe bend to be pigged (col lines); and a second transport pipe 31/36 connected to a downstream end of the pipe bend.

As concerns claim 12, Schroeder shows a gas bypass pipe for conducting gas around the pipe bend, wherein an inlet of the gas bypass pipe is connected upstream of the pipe separator, and an outlet of the gas bypass is connected to the second transport pipe disposed downstream of the pipe separator (fig 2).

As concerns claim 15, Schroeder shows the pipe bend includes a first section extending upwardly from the pipe separator, a second portion extending downwardly to the second transport pipe (fig 2).

Allowable Subject Matter

3. Claims 11 and 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 11/23/07 have been fully considered but they are not persuasive. Due to the bend structure of the pipes 28 and 24, the separator 23 acts as a pipe separator to separate out the gas from the fluid, thus anticipating the claims. The entire separator 23 inherently. The bend structure of the pipes 28 and 24 separate the fluid from the gas thus inherently a liquid seal is created between the phases of the hydrocarbon.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
